RE: ELECTRICAL SERVICES

Since the winter months are approaching, we need to pay attention to the increase in electrical services, as well as electrical outages. It has been brought to my attention that our electrical systems for our organization have greatly increased.

This memorandum is a reminder to please shut off your lights, radios, computers/printers, and heating and cooling systems when you leave your office for the day. Let's work together to bring these costs down.

If you have any questions or concerns, please notify my office. Thank you.
